

Hawley Municipal Airport

NEW HANGAR TAXILANE AND APRON WORK TO BEGIN

We are ready to start the construction for the taxilanes and apron for the future 8-unit T-Hangar.

Attached is a location plan. Provided we have favorable weather, the contractor will begin work on Monday, September 19 and will work through October 31, 2016.

The work should **NOT OBSTRUCT** the use of the airport and runway at all.

Please note that there will be low profile barricades along the existing taxiway between the hangars and the apron.

It is exciting to see development for more based aircraft here.

Bolton & Menk, Inc. is assisting us with this project.

The contacts for this project are:

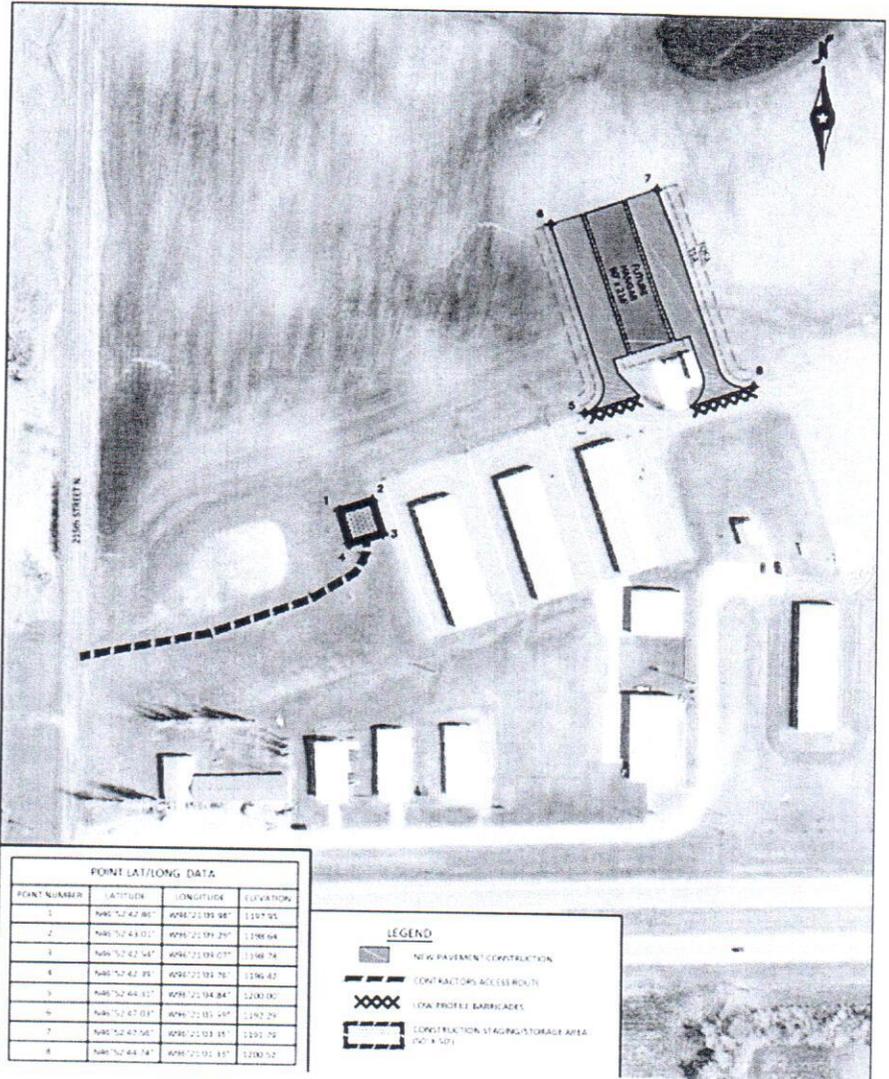

Lisa Jetvig, City Clerk Treasurer
